3- all plants and trees needs to be tracked plan alternative options instead of cutting trees in city the lung space is reducing heavily

plant trees   open spaces

4- chopping of trees should be stopped unless it's a matter of concern to life

plant trees

5- every new building should leave space to plant new trees care must be taken to see that they grow well

plant trees   open spaces

6- everything is fine but y is dat e1 after planning, u dig roads which r fine n make no roads for d people n coz of digging thrs so much of pollution n traffic n so much of health hazards for people staying thr n ppl commuting by dat road daily pls at least now plan properly don't just say master plan for name sake it shld ve sm serious good plan for d city
